

# The Baltic Sea - a multi-country destination

# Go for a cruise in the Baltic Sea

Few cruise regions offer such diversity and opportunity for an enriching cruise experience as the Baltic Sea Region. The port intensive cruise itineraries make it possible not just to wake up in a new country every morning, but also to cover everything from famous capitals to smaller, unexplored towns and cities.

**The Cruise Baltic Project** is continuously encouraging new partners and destinations to join in and benefit from our joint marketing effort. Discover why the Baltic Sea Region has become one of the world's most popular and fastest growing cruise destinations. And why a cruise of the Baltic Sea Region can be recommended as a once in a lifetime experience:

- Baltic Sea port destinations feature exciting contrasts of ancient and modern. Here you will find medieval stone houses side by side with modern architectural achievements, giving the whole region a very special charm and atmosphere that you will find nowhere else. Many attractions in the Baltic Sea Region are on the UNESCO World Heritage List.
- Pleasant climate with summer temperatures of 20-25°C/70-80°F. Endless skerries and light summer nights are just some of the many spectacular natural phenomena the region has to offer.
- A clean, safe environment with friendly, obliging people. English is widely spoken and it is easy to get around. Public transport in the Baltic Sea Region is safe, reliable, clean and cheap.
- Good infrastructure. The majority of Baltic Sea ports are within easy reach of the city centers and main attractions.

These are just some of the reasons why the Baltic Sea has become a unique cruise destination that is both easy to market toward cruise tourists and easy for cruise lines to operate in.
